## Introductory Remarks

# Types

- Narrow AI
  - Solves a specific problem
- General AI
  - General applicability

# What is Intelligence?

The **ability**

in a manner to

ability = knowledge

Stimulus

Stimulus

Stimulus ?

System

DESIRED  
OUTPUT

System

$$y = f(x; P)$$

knowledge

Which P ? → Training

# Training

- Stimuli  $\rightarrow$  Da
- High variance
- Issues:
  - Low genera
  - Ethical: Mar

# Artificial Neural Networks... *copying nature*

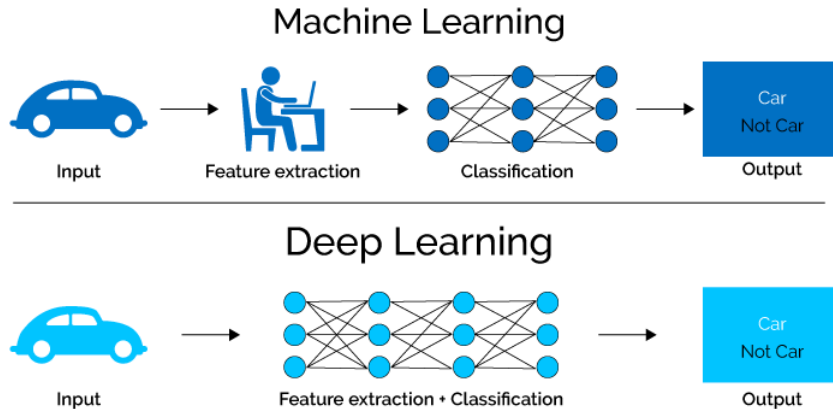

# Some historical observations

- 50' perceptron – the foundation of ANN
- 60' DARPA – the foundation of Internet
- 90' CERN – WWW
- 90s'-00s' – Explosion of technology
- ~08' – Foundation of cloud (Google)
- 10' – Deep Learning
- 14'-20' – Explosion of deep learning

2020 → 2021: ~100%  
increase!!!

# Opportunities

- Technology
  - Platforms/Tools (MLOps)
- Training
  - Skills in the data economy
- Services
  - Customer Support, HR, Creative Industries
  - Productivity increase (e.g. copilot)
- Regulations
  - AI Act

- Prompt engineering
